About Explore Valley Gardens

Explore Valley Gardens is a community-based coalition rooted in the empowerment and preservation of local gardens. Together with a network of local gardens, we share the common goal of ensuring that future generations have the opportunity to share the beauty found in the Central Valley. We know the positive impacts that gardening brings to so many aspects of life. Explore Valley Gardens focuses on educating the entire community about the various ways gardening can bring health, well-being, and joy into our lives.

National Garden Week

May 7 – 13, 2022

Discover and celebrate the joy of gardens in the Central Valley during this year's National Garden Week.

National Garden Week is the nation's biggest celebration of gardening and raises awareness of the difference that gardens can make in a community. Explore Valley Gardens works to inspire others to experience the joy of these beautiful green spaces.
